*Basic Current Procedural Terminology and HCPCS Coding, 2019*

AHIMA Product # AC200619

On pages 6, 82, and 278, it is stated that HCPCS Level II codes are discussed in chapter 10. However, the primary discussion of HCPCS Level II codes is provided in chapter 11.

Page 170 incorrectly states that figure 4.30 reveals the anatomy of the spine. A partial anatomy of the spine appears in figure 4.36.
